Bonus Feature:
Heart in the right place!

Hi! My name is
Sebastian Romero and
I'm a professional graphic
designer with 15 years
of experience.

I believe design is a **key part of our life experiences**, immersed in consumers societies as we are. Good design makes the world a more beautiful and understandable place, helping brands and people reach their true potential. Effective communication is the goal and good design is the vehicle.

I've helped companies and professionals revamp their visual identity and become more than they were. The path from a creative brief to an effective design piece is a journey I love taking everytime.

Let's make great things together!

Some example results...

From 2015 to 2020 I've helped the #1 business newspaper in Puerto Rico evolve, refining its design from inner pages to cover, giving it a creative twist.
Branding, editorial, cover art

In 2008 I was hired by Starbene, immediately improving their visual identity to appeal their aesthetics business audience in a better way.
Branding, advertising, interfaces and websites, digital campaigns
